

Business Headshot Guidelines

We would like the headshot photos to appear as uniform and as business-like as possible to portray CORSPAN as a professional organization.

Digital photos preferred - Scanned photo may work if good quality

Mid-torso or shoulders and up
Business attire
Business hairstyle and accessories
No family, pets or food/beverages

Minimum Size: 180 pixels X 180 pixels and 72 dpi

Resolution: High resolution photos are used for print, not the web. Your photo will upload no matter what size and resolution. It will be resized automatically however a very high res file will load slowly.

A photo too large is better than one that is too small.

If you need assistance with resizing or cropping, contact our Web Developer Laura Wagner – laura@websbywagner.com

CORSPAN reserves the right to accept, refuse or edit any picture submitted.

Thank you for supporting CORSPAN!
