

-teen and -ty

Practice with the numbers with different stress patterns

	a. 	b. 
1	15	50
2	13	30
3	17	70
4	16	60

Remember that the “teen” numbers can change stress to the first syllable if they come before another word in a phrase.

Which pattern represents “15” in the sentences below?

a. 

b. 

1. I read 15 pages of the book last night.
2. There were 15 people in the room.
3. I think he’s in room 15.
4. 15, 16, 17, 18, 19, 20
5. My cousin just turned 15.
6. $15 \times 4 = 60$
